

FOR PSA MEMBERS: GAUTENG DEPARTMENT OF HEALTH (EMS)

12-05-2021

Update: Emergency Medical Services (EMS) - Intended March on 13 May 2021

The PSA wishes to advise all the Union's members in EMS that it has not planned any form of mass action for 13 May 2021 on behalf EMS workers.

The PSA, through elected shop stewards in EMS, from time-to-time raises issues that would then be taken up with the employer through bi-lateral discussions and Bargaining Forum meetings. The PSA has submitted a formal agenda item in the Bargaining Forum for development of policy on working hours to address the current challenges facing shift work in EMS.

The PSA encourages members to utilise all PSA Provincial Offices and shop stewards to raise their concerns for the PSA to challenge the employer on those issues and other collective bargaining and rights issues.

The PSA further advises members not to participate in any form of a march that is not sanctioned by the PSA following proper processes to avoid a situation where members are charged for participating in unprotected strike action.
