

Feedback: GPSSBC Special Chamber Meeting – KZN

New organisational structure

The Department of Human Settlement is using the old organisational structure that was approved in 2008. As a result, it is no longer in line with its mandate and priorities as the strategy has changed. There is also a non-alignment of the strategy with the current structure resulting in poor service delivery. The employer has tabled the new organisational structure that was discussed with labour in the Departmental Task Team to be endorsed by the Chamber.

Procedurally the employer was supposed to have brought a report to the Chamber from the Task Team, as well as the minutes bearing the signatures of the Task Team members, who were involved when this matter was discussed. The employer did not supply labour with these documents. As a result, the meeting was adjourned. The employer will make these documents available and a follow-up Special Chamber Meeting will be convened within seven days.
