## Update: Adjustment of remuneration of SMS members - 2021/22-financial year

As previously reported, the PSA is aware that the employer has not yet finalised the implementation of the salary adjustments for SMS members for the 2021/22-financial year as of 1 April 2021. The PSA has made regular enquiries with the Department of Public Service and Administration as to why the SMS salaries have not been adjusted as yet.

The DPSA has responded once again that once the salary adjustment for levels 1 to 12 has been completed, a process will be implemented for salary adjustment for SMS members. A copy of the response from the DPSA is *attached*.

The PSA will continue enquiring and ensure that the adjustments are implemented. Members will be informed of developments.

**The PSA wants to take this opportunity to wish all employees who are unwell owing to COVID-19 a safe and speedy recovery.**
