## Update: Adjustment of remuneration of SMS members - 2021/22-financial year

The PSA noted that the employer has not yet implemented the salary adjustments for SMS members for the 2021/22-financial year as of 1 April 2021.

This prompted the PSA to enquire from the Department of Public Service and Administration on why there was no adjustments to SMS salaries. The DPSA responded by indicating that once the salary adjustment for levels 1 to 12 have been completed, a process will be implemented for salary adjustment for SMS members. A copy of the response from the DPSA is *attached*.

The PSA will continue enquiring and ensure that the adjustments are implemented. Members will be informed of developments.
