## Feedback: Departmental Bargaining Chamber and Annual General Meeting

At the recent meeting, the following agenda items were discussed:

### Determination of vote weights

The Annual General Meeting for the Centre for Public Service Innovation was held on 16 August 2024, where the following vote weights were presented for noting by parties:

| Union  | Membership | Vote weight |
|--------|------------|-------------|
| PSA    | 7          | 25%         |
| Nehawu | 21         | 75%         |

The PSA noted the presentation.

### Occupational Health and Safety report

The employer reported that the Department of Public Works and Infrastructure (DPWI) withdrew the previous tender documents for procuring a new building. It was further reported that the Bid Specification Committee encountered challenges in finalising the procurement process. Subsequently, the employer issued a new bid to restart the process. The employer further mentioned that the Committee has now prepared the necessary documents for the bid adjudication process to commence. The employer committed to presenting a comprehensive procurement report at the upcoming labour meeting. The PSA noted the employer's report but expressed concern over inadequate office space at the DPWA building. The PSA emphasised the urgency of expediting the new building procurement process. Additionally, the PSA requested the employer to provide the project plan and timelines. The employer acknowledged these requests and mentioned that the information would be shared upon receipt from the DPWI.

Members will be updated on developments.
