PSA SHOP STEWARD NEWSLETTER

PROJECT: *Bring them back!*

The PSA has record of a substantial number of members for whom membership fees are not received owing to Persal restrictions. Many of these cases (mostly related to a movement in union membership) cannot be rectified electronically and the PSA thus needs shop stewards' assistance to ensure these members' membership is reimplemented.

Shop stewards are firstly urged to advise members to scrutinise their pay slips to confirm that their PSA membership is in good standing. Any irregularities/non-deductions must be followed up urgently.

In a special project, from **1 May to 30 September 2017**, shop stewards can assist the PSA with the manual reimplementation of identified members. This action needs to be undertaken at the respective HR or payroll offices (paypoints) as these are the only points where members' standing can be rectified.

Shop stewards will receive R100

(subject to normal tax rules)
for every successful reimplementation.

HOW TO PARTICIPATE IN THE PROJECT?

1. Obtain a list of PSA members of your Department from your PSA Provincial Office.
2. Visit the relevant HR office or paypoint(s) and secure manual reimplementation of the member(s)' PSA membership.
3. Submit a list of successful reimplementations to your PSA Provincial Office for verification.

Payment for successful reimplementations will be effected by the PSA at the end of the project.

Thank you for your service to PSA!
